

HP 14-inch Convertible Laptop Backpack Tote (9C2H0AA)

Overview

One Bag. Four Ways.

Whether on-the-go for work or play, keep your technology close with one functional, lightweight bag that adjusts to match your style and mission. Convert it from a 14-inch[1] laptop backpack to a tote, folded bag, or handbag, so you can take it with you no matter what you do or where you go.

One Bag for Any Situation

Adjust this shapeshifting bag to your on-the-go lifestyle. No matter what you're doing or where you're going, you'll find this thin, light laptop backpack both functional and versatile as it conveniently transforms into four different form factors—laptop backpack, tote, foldable bag, and handbag—with a single strap.

Built to Last

You mean business, and so does this backpack. Designed for lasting performance, it comes with an impressive 3-year warranty. The bottom is lined with a thicker fabric for added durability each and every time you set the bag down. Plus, it's equipped with metal D rings and buckles for heavy handling.

Packed and Protected

Organize your things your way with this convertible backpack that offers 18L of workable space. Your laptop[1] fits inside both vertically and horizontally. And the entire bag attaches snugly to your rolling luggage. Take advantage of five pockets total—including external quick pocket, protective RFID-blocking pocket, and three internal pockets for pens and accessories.

Designed with purpose

Here's a functional laptop backpack that you can really feel good about wearing, with 60% post-consumer recycled plastic (PCR) (31 plastic bottles)[2] and FSC® certified packaging.

Features

A Place for Everything

Quick-access pocket on the outside and internal pockets for all your things.

Traveling Convenience

Conveniently and securely attach your laptop backpack to your rolling luggage for easy transport.

Protection for Peace of Mind

Protect credit cards and other sensitive information with a dedicated RFID-blocking pocket.

[1] Fits most laptops up to 14 inches.

[2] Bottle count calculation is based on 12.7 grams per 16.9 ounce single serve bottle. Recycled plastic content percentage is based on the definition set in the IEEE 1680.1-2018 EPEAT® standard.
